HGCA carries out research and development, market information, supply chain activities and consumer marketing programmes for the benefit of the cereals and oilseeds sector

HGCA - Winter oilseed rape 2012-13

On reading my fellow monitor farmer's blog with his baler mishap, it reminded me we had a similar incident - but fortunately we only had a damaged sensor and bearing.

Luigi Guarino

AgroBioDiverse

@WarwickGRU And future improvements don't require knowledge of currently available traits?
